

Massachusetts Beekeepers Association is a federation of beekeepers throughout the state Massachusetts. We have beekeepers with only one colony to several hundred colonies. We have three large meetings each year throughout the state to discuss the latest beekeeping techniques.

Our mission is education of both beekeepers and the general public to the importance of honeybees and good beekeeping practices.

[Download an informational brochure about Mass Bee](#) (PDF format). This brochure contains interesting bee facts as well as info about the benefits of joining Mass Bee.
